Midwest Partnership EDC

Midwest Partnership EDC is a nonprofit, collaborative economic development organization formed to strengthen the economic vitality of Adair and Guthrie counties of west central Iowa. We are the region's leading facilitator for the retention, expansion and attraction of business to create jobs and grow the tax base.

The Midwest Partnership board of directors and staff continue to believe we must focus our mission on growing existing business, local entrepreneurship, new business attraction and community awareness. Our primary goal is to equip our partners at the community and business level with the resources they need to not just survive, but thrive. We work to grow our business base to bring in more jobs and improve quality of life, first through existing business, then by attracting new ones. A car drive (or even bike ride) around the region finds investments taking place in the form of small business startups, wind towers, and expansion of existing facilities. Strong collaboration by, with and between area partners is largely responsible for this success.

The golf outing serves as a development event each year for an organization-sponsored project. This year's golf outing will help support the continued growth of our local and regional marketing to promote the region and its economic efforts. We believe we have a great story to tell and an incredible region to sell, and this event is an essential element supporting that strategy.

Each of the past 24 golf outings have brought together allied partners and economic development "movers and shakers" for a few hours of networking and fun. Thank you for your continued support of Midwest Partnership EDC and efforts to enhance the overall vitality of the region.
